

The diagram illustrates a 10x10 grid of nodes, represented by small gray circles. Each node is labeled with the number '100'. The nodes are arranged in 10 rows and 10 columns. Horizontal connections (represented by gray lines) link adjacent nodes within each row. Vertical connections (represented by gray lines with double-headed arrows) link adjacent nodes within each column. The grid is bounded by a thick black line on the left and a thick black line on the top.
